

Safety Data Sheet

Issuing Date 16-Feb-2011

Revision Date 21-May-2014

Version 2

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Other means of identification Product Code(s) AEO-5W2, AEO-5W2-640, AEO-5W3, AEO-5W3-640, AEO-10W3, AEO-10W3-640, AEO-10W4, AEO-10W4-640, AEO-20W5, AEO-20W5-640 Synonyms No information available Recommended use of the chemical and restrictions on use Recommended Use Engine oil, Lubricant. No information available Details of the supplier of the safety data sheet Manufacturer Address The Lubri-Loy Company 150 Enterprise Dr. Wentzville, MO 63385 TEL: (636) 561-5007 Kata sheet Emergency telephone number Company Phone Number Company Emergency Phone (636) 561-5007	Product identifier Product name	Automotive Engine Oils Mineral; 5W-20, 5W-30, 10W-30, 10W-40, 20W-50
Recommended use of the chemical and restrictions on use Recommended Use Engine oil, Lubricant. Uses advised against No information available Details of the supplier of the safety data sheet Manufacturer Address The Lubri-Loy Company 150 Enterprise Dr. Wentzville, MO 63385 TEL: (636) 561-5007 Emergency telephone number Company Phone Number (636) 561-5007 Company Emergency Phone		
Recommended Use Engine oil, Lubricant. Uses advised against No information available Details of the supplier of the safety data sheet Manufacturer Address Manufacturer Address The Lubri-Loy Company 150 Enterprise Dr. Wentzville, MO 63385 TEL: (636) 561-5007 (636) 561-5007 Emergency telephone number (636) 561-5007 Company Phone Number (636) 561-5007	Synonyms	No information available
Manufacturer Address The Lubri-Loy Company 150 Enterprise Dr. Wentzville, MO 63385 TEL: (636) 561-5007 Emergency telephone number Company Phone Number (636) 561-5007 (636) 561-5007	Recommended Use	Engine oil, Lubricant.
Company Phone Number (636) 561-5007 Company Emergency Phone (636) 561-5007	Manufacturer Address The Lubri-Loy Company 150 Enterprise Dr. Wentzville, MO 63385	data sheet
Number (636) 561-5007 Emergency telephone number Chemtrec 1-800-424-9300	Company Phone Number Company Emergency Phone Number	(636) 561-5007

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Label elements

EMERGENCY OVERVIEW

Appearance Amber colored liquid

Physical state viscous liquid

Odor Mild petroleum odor

Hazards not otherwise classified (HNOC)

Other information Unknown Aquatic Toxicty

0% of the mixture consists of ingredient(s) of unknown toxicity

3. COMPOSITION/INFORMATION ON INGREDIENTS

Common Name Chemical Family Hydrocarbon Lubricating Fluid. Petroleum hydrocarbon mixture.

Chemical name	CAS-No	Weight %	Trade secret
Lubricating oils, petroleum, hydrotreated spent	64742-58-1	55-85	*
Petroleum distillates, hydrotreated heavy paraffinic	64742-54-7	0-25	*
Zinc dialkyl dithiophosphate	68649-42-3	0.50-0.91	*

*The exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

First	aid	measures	

. .

General advice	No hazards which require special first aid measures.		
Eye contact	Flush eyes for 30 minutes with water. Get medical attention if irritation persists.		
Skin contact	Wash off immediately with soap and plenty of water.		
Inhalation	Move exposed persons to fresh air. Consult medical personnel if breathing issues occur.		
Ingestion	Do NOT induce vomiting. Consult a physician.		
Most important symptoms and effects, both acute and delayed			
Symptoms	No information available.		
Indication of any immediate medical attention and special treatment needed			
Notes to Physician	Treat symptomatically.		

5. FIRE-FIGHTING MEASURES

<u>Suitable extinguishing media</u> Carbon dioxide (CO₂). Dry chemical. Foam. Water can be used to keep surrounding materials cool.

Small Fires	Always use personal safety equipment. Follow appropriate personal safety procedures, and extinguishing media.
Large Fires	Contact emergency personnel.
Unsuitable extinguishing media	Caution: Use of water spray when fighting fire may be inefficient.

Specific hazards arising from the chemical

Combustible material.

Hazardous combustion productsCarbon monoxide. Carbon dioxide (CO2).

Explosion data Sensitivity to Mechanical Impact None. Sensitivity to Static Discharge None.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal protection

Avoid contact with the skin and the eyes. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. Wash skin with soap and water if contact occurs. Launder soiled clothing. If spilled, take caution, as material can cause surfaces to become very slippery.

using absorbent, inert, non-combustible "material. Large Split Contain split, transfer to secure containers. In the event of an uncontrolled material release, the user should determine if release is reportable under applicable laws and regulations. For emergency responders Clean up area with absorbent material and place in closed containers for disposal. Environmental precautions See Section 12 for additional Ecological Information. Methods and material for containment and cleaning up. Methods for containment Methods for cleaning up Excess liquid material can be collected using a scoop or shovel and stored for recycling or disposal. Prevent material from entering drains or waterways. Precautions for safe handling Avoid contact with skin, eyes and clothing. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. If contact is made, wash skin with scop and water. Launder soled of thing. If contact is made, wash skin with scop and water. Launder soled dothing. If contact is made, wash skin with scop and water. Launder soled dothing. If contact is made, wash skin with scop and water. Launder soled dothing. If contact is made, wash skin with scop and water. Launder soled dothing. If contact is made, wash skin with scop and water. Launder soled dothing. If contact is made, wash skin with scop and water. Launder soled dothing. Split locutare is another the pretature. Conditions for safe storage, including any incompatibilities Storage Conditions Keep away from heat and sources of ignition. Keep containers closed when not in use. Folow first aid measures if contact occurs, and split procdures if spli		
Environmental precautions See Section 12 for additional Ecological Information. Methods and material for containment and cleaning up. Methods for containment Methods for cleaning up Cover with earth, sand, or other non-combustible material followed with plastic sheets to minimize spreading or contact with rain. Methods for cleaning up Excess liquid material can be collected using a scoop or shovel and stored for recycling or disposal. Prevent material from entering drains or waterways. Precautions for safe handling Avoid contact with skin, eyes and clothing. Eye protection or face shield should be used if material is used under conditions that increase the chances of splattering. If contact is made, wash skin with scop and water. Launder solied clothing. Maximum handling temperature is 70 degrees C (158 F). It is recommended to pump or transfer material at ambient temperature. Conditions for safe storage, including any incompatibilities Storage Conditions Keep away from heat and sources of ignition. Keep containers closed when not in use. Follow first aid measures i contact occurs, and split procedures i split occurs. For packaged material: Store in a cool dry area. For built material store in cool dry area. For built material store in cool dry area. Always follow local, state, and federal guidlines for storage of material exposure limits established by the region specific regulatory bodies. Appropriate engineering controls Strong oxidizing agents. Exposure guidelines This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulat	Other information	using absorbent, inert, non-combustible material. Large Spill: Contain spill, transfer to secure containers. In the event of an uncontrolled material release, the user should
Environmental precautions See Section 12 for additional Ecological Information. Methods and material for containment and cleaning up. Cover with earth, sand, or other non-combustible material followed with plastic sheets to minimize spreading or contact with rain. Methods for cleaning up Excess liquid material can be collected using a scoop or shovel and stored for recycling or disposal. Prevent material from entering drains or waterways. T. HANDLING AND STORAGE Precautions for safe handling Avoid contact with skin, eyes and clothing. Eye protection or face shield should be used if material is used under conditions that increase the chances of splatering. If contact is made, wash skin with scop and water. Launder solied clothing, Maximum handling temperature is 70 degrees C (158 F). It is recommended to pump or transfer material at ambient temperature. Conditions for safe storage, including any incompatibilities Storage Conditions Keep away from heat and sources of ignition. Keep containers closed when not in use. Follow first ald measures if contact occurs, and spill procedures if spill occurs. For packaged material: Store in a cold try area. To buik material: store in cool dry area. Always follow local, state, and federal guidlines for storage of material or amount stored. Descure guidelines Storage Conditions Network subshow the spin specific regulatory bodies. Procure solie clothing. Protective guidelines to precound a spill procedures if spill occurs. For packaged m	For emergency responders	Clean up area with absorbent material and place in closed containers for disposal.

	Skin and body protection	

Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.			
General Hygiene Considerations	Remove and wash contaminated cloth	ing before re-use.		
Ç	. PHYSICAL AND CHEMICAL I	PROPERTIES		
Information on basic physical and	chemical properties			
Physical state	viscous liquid			
Appearance	Amber colored liquid	Odor	Mild petroleum odor	
Color	amber	Odor threshold	No information available	
Property_	Values_	Remarks • Method		
pH Malting point(receips point	No information available			
Melting point/freezing point Boiling Point/Range	No information available No information available			
Flash point	$> 200 \ ^{\circ}C / > 392 \ ^{\circ}F$	Cleveland open cup (CO	C)	
Evaporation rate	No information available		-,	
Flammability (solid, gas)	No information available			
Flammability Limit in Air				
Upper flammability limit:	No information available			
Lower flammability limit:	No information available			
Vapor pressure	No information available			
Vapor density	No information available 0.86-0.87			
Specific gravity Water solubility	No information available			
Solubility in other solvents	No information available			
Partition coefficient	No information available			
Autoignition temperature				
Decomposition temperature	No information available			
Kinematic viscosity	50-145 @40C mm2/s			
Dynamic viscosity	No information available			
Explosive properties	No information available			
Oxidizing properties	No information available			
Other information				
Softening point	No information available			
VOC Content	No information available			
Density	No information available			
Bulk density	No information available			

10. STABILITY AND REACTIVITY

Reactivity No data available

Chemical stability Stable under normal conditions.

Possibility of Hazardous Reactions

None under normal processing.

Hazardous polymerization

Hazardous polymerization does not occur.

<u>Conditions to avoid</u> Excessive heat. High energy sources of ignition.

Incompatible materials

Strong oxidizing agents.

Hazardous decomposition products

None known based on information supplied.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information	No data available	
Inhalation	Inhalation of vapors in high concentration may cause irritation of respiratory system.	
Eye contact	Avoid contact with eyes. May cause irritation.	
Skin contact	May cause eye/skin irritation. Repeated exposure may cause skin dryness or cracking.	
Ingestion	Do NOT taste or swallow.	

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Lubricating oils, petroleum, hydrotreated spent 64742-58-1	> 2000 mg/kg (Rat)	> 4480 mg/kg (Rabbit)	-

Information on toxicological effects

Symptoms

No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

IrritationIrritating to eyes.SensitizationNo information available.Germ cell mutagenicityNo information available.CarcinogenicityMineral oils are known to cause cancer because of carcinogenic components (e.g.
benzene). The mineral oil in this product is highly refined and should not be considered a
carcinogen. Used lubricating oil may contain hazardous components which have the
potential to cause skin cancer. Continuous long-term contact with used lubricating oils has
caused skin cancer in animal tests.

Chemical name	ACGIH	IARC	NTP	OSHA
Petroleum distillates, hydrotreated heavy paraffinic 64742-54-7	-	Group 1	-	Х

Reproductive toxicity	No information available.
STOT - single exposure	No information available.
STOT - repeated exposure	No information available.
Aspiration hazard	No information available.

Numerical measures of toxicity - Product Information

Unknown Aquatic Toxicty	0% of the mixture consists of ingredient(s) of unknown toxicity			
The following values are calculated based on chapter 3.1 of the GHS document				
ATEmix (oral)	5051 mg/kg			
ATEmix (dermal)	5051 mg/kg			

12. ECOLOGICAL INFORMATION

Ecotoxicity

17.48% of the mixture consists of components(s) of unknown hazards to the aquatic environment

Chemical name	Algae/aquatic plants	Fish	Crustacea
Lubricating oils, petroleum, hydrotreated spent 64742-58-1	-	3.2: 96 h Pimephales promelas mg/L LC50 semi-static 79.6: 96 h Brachydanio rerio mg/L LC50 semi-static	-
Petroleum distillates, hydrotreated heavy paraffinic 64742-54-7	-	5000: 96 h Oncorhynchus mykiss mg/L LC50	1000: 48 h Daphnia magna mg/L EC50
Zinc dialkyl dithiophosphate 68649-42-3	-	1.0 - 5.0: 96 h Pimephales promelas mg/L LC50 static 10.0 - 35.0: 96 h Pimephales promelas mg/L LC50 semi-static	1 - 1.5: 48 h Daphnia magna mg/L EC50

Persistence and degradability

No information available.

Bioaccumulation

No information available.

Other adverse effects	No information available		
13. DISPOSAL CONSIDERATIONS			
Waste treatment methods			
Waste Disposal Method	Disposal should be in accordance with applicable regional, national and local laws and regulations.		
Contaminated packaging	Do not reuse container.		

14. TRANSPORT INFORMATION

DOT

Not regulated

IATA

PETROLEUM LUBRICATING OIL; NOT REGULATED AS DANGEROUS GOODS FOR TRANSPORT UNDER ICAO TI OR IATA DGR

15. REGULATORY INFORMATION

International Inventories	
TSCA	Does not comply
